SIGNED THE CONTRACT

Wrecking Companies to Go to Work on the Maine.

A MAMMOTH UNDERTAKING.

An Effort Will Be Made to Float the Big Cruiser and Tow It to New York, but This May Not Be Accomplished.

Washington, Feb. 23.—Captain Sigsbee was heard from in a dispatch which indicates that close attention will be given to the coal bunkers by the naval court of inquiry at Havana.

Officials unquestionably have been for some time preparing for any emergency that may arise. The Castine and Cincinnati are to move much further north to West Indian waters, and at Norfolk the monitor Terror has been ordered to be in readiness and may be sent to New York later.

Criticisms lately passed upon the state of the army and our fortifications has caused increased activity in milltary matters, and to some extent this is responsible for reports arriving from various quarters of movements at army posts.

Secretary Long completed a contract with two wrecking companies to work on the Maine. They will begin at once with 100 men.

The terms of contract provide for the payment to the wrecking companies of the sum of \$871 per day for their regular plant, and an additional payment of \$500 per day for the use of the Monarch while the latter is actually employed.

It is also provided that the compensation shall not exceed the sum of money (\$200,000) appropriated by congress for this purpose. Finally, it is provided that if the companies succeed in raising the Maine and towing her to New York, they shail receive a bonus of \$100,000.

In view of the large first cost of the Maine-about \$5,000,000-and the national desire that she hall be raised, as evidenced by the prompt and unanimous action of congress upon the joint resolution, Secretary Long beiieves that he is fully justified in making the above terms with

Probably Lieutenant Commander Wainwright, the executive officer of the Maine, now in Havana, will be assigned to the dutw of inspecting the work as it proceeds.

The officers of the two wrecking companies said that after the expedition was assembled in Havana harbor a complete inspection of the wreck would be made, and the exact line of work determined upon.

The facilities will be so ample that all the divers will be able to work at one time on different parts of the wreck. Most of the lifting will be done by the smaller derrick, which is of sufficient capacity for the lighter upper works of the Maine, but it wili take the monster derrick Monarch to lift the huge turrets of the Maine and the guns mounted within them.

It is the purpose not to separate the big guns from the turrets, but to lift them as a whole. This will be a tremendous undertaking, as the combined weight of each turret and guns is 166 tons. The Monarch can lift 260 tons, so there is an ample margin of iifting power.

The wreckers were loath to express an opinion as to their ability to raise the hull of the Maine. They are hopeful, however, that the ship can be brought to the surface. The iron barge Lone Star will be used to receive the turrets, guns and wreckage, and as fast as loads are made up she wili be towed to the Norfolk navy yard.

Sectional Drawing of Maine.

Washington, Feb. 23.—The navy department received the following telegram from Captain Sigsbee: "Send to Forsythe for Sigsbee transverse sectional drawing of Maine through forward 10-inch magazine and sheli room, showing pocket coal bunkers." This request was immediately complied with. It is supposed that Captain Sigsbee wants these drawings to assist in the work of raising the ship, as they would be of great aid to the divers. They will be useful also as the basis for the testimony now being taken by the court of inquiry.

In Memory of Maine's Crew. Cleveland, Feb. 23.-By direction of Schop Horstman a solemn requiem ass was celebrated in St. John's cathedral, this city, in memory of the dead crew of the battleship Maine. PRESIDENT MCKINLEY might send another big warship to Cuban waters for the accommodation of the treacherous Spaniards, as it comes just to their hands to destroy our navy piecemeal.

BECAUSE of the number of criminals pardoned by President McKinley, and the pardoned men, the Chicago Record asks: "Is the free and unlimited circulation of defaulting bank officials and embezzlers to be the financial policy of this country?"

A MONUMENT to the extravagance of Congress can now be seen at Richmond, Ky. During the public building craze a few years ago the sum of \$125,000 of the people's money was spent in erecting a building at that point. The Internal Revenue Collector's office is to be removed to Danville, and when that is done the structure will be closed with the exception of the lower floor, which is used for a postoflice which could be accommodated in a \$5,000 building.

THE Philadelphia Record thus refers to a new trust: "The biscuit and cracker trust has now been organized. It controls 139 plants, or 90 per cent. of all the large bakeries between the Atlantic Ocean and the Rocky Mountains. It has a capital of \$25,000,000 preferred and \$30,-000,000 common stock. Its intentions are angelic. It does not propose to increase prices. Its only aim is to promote economies in manufacturing processes. But-competitors had better stand out of the way."

FOUR BILLS.

The Result of Kentucky Legislative Work So Far, and the Governor May Veto Two of Them.

The result of the legislative session, as far as passing bills is concerned, is four bills that are now in the hands of the Governor.

One of these is the Bronston Prison Commission bill, which is almost certain to be vetoed by the Governor, because it's more than he bargained for when he recommended such legislation. Another is the McChord Freight Rate bill, and its chances are hanging in the balance, as it may be vetoed also.

The Prison Commission bill may have a chance to win out over a veto, but the Republicans have agreed on dilatory tactics on all important measures for the rethe character of the crimes committed by mainder of the session, and may fight off a final vote to pass it over the veto.

Counting to-day there will be only eighteen more legislative days this session, and any bills passed after this week that are vetoed will have but small chance of being passed over the veto, as the Governor has ten days in which to approve or disapprove a bill after it reaches him. He can hold up his veto till the tenth day, and the Legislature will then have but a dayor two to act on the returned bill. The Republicans can filibuster and delay matters for a few hours each day and then effectually prevent the veto being overridden.

"With the House Democrats split up over the Goebel Election bill and the Senate Democrats at logger-heads over the Local Option bill, the outlook for any more important legislation this session is not very hopeful. To accomplish anything the Democrats must get together and figlit for properlegislation, just as if they had but two majority in the Legislature instead of the dangerous majority of sixty-six," says a Frankfort correspond-

In addition to the four bills that have reached the Governor, eight others have passed both houses.

About forty bills have passed the Senate alone, and from fifty to sixty have passed the House aloné. About 100 bills have been killed in the two houses, leaving about 400 that have not been acted upon

THE TOURISTS.

They Learn Something of Theatres and Theatre-Going in Old London.

Tuesday afternoon the Tourists answered to roll call with miscellaneous quotations, and then took up the subject

Theatre-going, it seems, is an expensive luxury, the best theatres charging from \$1.50 to \$3.50 a seat. Programs are not free. You buy one from the usher, and do not expect your change, unless you are inured to disappointment. But the performances are given in great perfection, to the most minute detail. If an opera,-why, the chorus can sing. If there's a ballet, all are toe dancers; in fact, a regular "all-star cast" all around. Samples of British Justice. [Chattanooga News.]

We have had lately many proofs of the inflexible nature of British justice. Osear Wilde, a sprig of nobility, a person of much literary repute, having a powerful family pull, was sent to prison, con-demned to hard labor, and he went and served out his time; so will Lord Neville. It is but a few months since a Countess was released from prison, where she had served her time for criminal libel. When the Prince of Wales became mixed into the Tranby Croft baccarat scandal and got into court as a witness, no deference was shown him that would not be shown any well dressed man who bore about him the ontward seeming of gentillty.

COMMITTEE'S APPEAL.

Maysville Property Owners Asked to Aid Washington Fire Company-Subscriptions to Date.

The following is self-explanatory: To the Property Holders and Citizens of Maysville: On Sunday morning, January 30th, the Washington Fire Company lost by fire their home together with the opera house upon which they depended for their support and upon which our citizeus depended for an amusement hall. In the destruction of the hullding there went up in smoke and flame the hard carnings of the company, eovering a period of forty-eight years and amounting to over \$12,000. They are now withont shelter and without a single dollar-nothing left save their honor. The firemen of our city have always been faithful to duty in saving your property, and upon many occasions have saved our city from total destruction. It is now proposed, and due them, to rebuild their home, and for this purpose a subscription has been started and a liberal amount secured. Will you be one to assist in this effort by a subscription? Re-THOMAS A. DAVIS, spectfully. ALEX. CALHOUN.

HORACE J. COCHRAN. Every property owner in the city is directly interested in this matter, and a liberal response to this appeal wili enable the company to begin the work of rebuilding as soon as spring opens.

The appellant holding the office of Assessor was adjudged a lunatic and sent to the asylum. During his confinement therein the office was declared vacant by an order of the County Court, The appellant afterward recovered and was discharged from the asylum, and brought an action to recover his office, basing his action upon the failure of the County Court to give him notice of the pending of the proceeding in which the office of Assessor was declared vacaut. Held: That as the judgment of conviction of lunacy was not attacked, a notice of the order to declare a vacancy was immaterial, appellant helng undersaid judgmeut civilly dead.

CARELESSNESS in girlhood causes the greatest suffering and unhappluess in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at onee. Dr. Picree's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The Favorite Prescription is not a universal panaeca. In is good but for one thing. It is directed solely at 5 00 one set of organs.
